Notes

- End of Course evaluations may be administered more frequently for programs on non-standard of block scheduling.
- Additional IAI Data Vitals may be produced if/as needed.
- The Alumni Survey does not appear on the MIEC as it is currently under development.
- All IE reports are shared fully or via executive summary with one or more committees of the board (typically MASA), the President’s Cabinet, and as appropriate with the Faculty Senate, Enrollment Management Council, and/or Academic Council.
- The Board participates in periodic self-evaluation; for details contact the Office of the President.
- Registration for Great Colleges to Work For starts in November
- Data submission to Peterson’s Survey in September
- Data submission to US News-Graduate Programs in November

Details

- The University produces three **University Term KPI Reports**. The term reports will include five of the existing University-wide Key Performance Indicators: new student enrollment including AS course completions, student retention, student licensure examination and certification pass rates, accreditation management, and financial performance. These are one page snapshot reports without detailed analysis.
- The University produces an annual **University Year End Report**. The year-end reports will include all University-wide Key Performance Indicators as well as a) graduation rate by program b) cohort default rate c) student demographic overview. The *University Year End Report* will also include a year-over-year comparison and analysis of trends and findings.
- Student Satisfaction including Net Promoter Scores and satisfaction with technology services and resources will be measured as part of the **Annual Student Experience Survey**.
- Employee Engagement including Net Promoter Scores and satisfaction with technology services and resources will be measured through an annual **Great Colleges to Work for Survey**.

General Information

- Faculty and Staff Survey Instruments will provide data on:

- Employee engagement
 - Satisfaction with technology resources and services
 - Likelihood to recommend SCU to potential student
 - Likelihood to recommend SCU to potential employee
-
- Student survey instruments will provide data on:
 - **End of Course Evaluations**
 - Student engagement
 - Satisfaction with student services
 - Satisfaction with technology resources and services
 - Likelihood to recommend SCU to a potential student
-
- Graduate survey instruments will provide data on:
 - The **Graduate Exit Survey** is in revision under direction of Office of Institutional Effectiveness.
 - Anticipated areas of review include perception of program learning outcome competencies, belongingness, and post-graduation plans.
-
- Alumni survey instruments will provide data on:
 - The **Alumni Survey** is in evaluation under direction of Office of Alumni Services.
 - Recommending: Alumni Office works with/through OIE to develop survey instrument and determine additional information to be reported (i.e. licensure information)
-
- Additional formal reports include
 - **IAI Data Vitals**
 - **End of Course Evaluations Annual Report**
 - **Annual Program/Department CIRCLE Reports**
 - **Mid Cycle Program Review**
 - **Program Reviews**
