

SCU students are required to acknowledge and adhere to SCU's **COVID-19 Health and Safety Protocols** to participate in face-to-face learning. The University has developed these protocols for the safety of our community. The health and safety protocols for the campus address environmental, cleaning, behavioral, classroom, surveillance, testing, and containment considerations and are consistent with the county, state, and Centers for Disease Control and Prevention requirements and best practices.

Self Reporting: Students participating in face-to-face learning including visiting the campus and clinical sites must immediately complete the app-based questionnaire to report any COVID-19 symptoms, exposures, and positive tests. Students should be forthcoming about any symptoms, possible exposures, and positive tests. If the screening advises the student that he or she may be at risk for COVID-19, the student must follow the instructions displayed within the app **stay home**. Students who are advised via the app to stay home may not return to campus until information entered into the app grants them clearance.

Adhering to Sanitation and Social Distancing Requirements While On Campus: While on campus, students must comply with SCU's Site-Specific Protection Plan, including, but not limited to all of the following:

- Wash hands often with soap and water for at least 20 seconds, especially after having been in a public space or after blowing your nose, coughing, or sneezing.
- Use hand sanitizer (with at least 60% ethanol or 70% isopropanol) frequently to supplement regular hand washing.
- Avoid close contact with people who are or may appear to be sick.
- Cover your mouth with your elbow or a tissue when coughing or sneezing.
- Indoor masks are recommended but no longer required on SCU's campus EXCEPT in healthcare settings.
- Do not share face coverings and masks with others.

Adhering to Sanitation and Social Distancing Requirements of Clinical and Preceptorships Sites: In addition to the requirements set forth while on campus, students must adhere to all applicable health and safety requirements set by our clinical and preceptorship partners.

Adhering to Public Health Guidelines While Off-Campus: Students are required to follow all public health orders on and off campus. **Non-Compliance:** Students who do not comply with the health and safety protocol policy may be subject to discipline up to and including dismissal from their academic program.
