

Researchers at Southern California University of Health Sciences are **seeking volunteers** for a research study.

Do You Have long COVID?

Acupuncture Treatment for long COVID: A Pragmatic Pilot Study

The purpose of this research study (SCU-IRB #VINJ011) is to study the effects of **acupuncture and Chinese herbal supplements** on long COVID symptoms.

**You or someone you know
might be a good fit if...**

You have had long COVID symptoms for more than 4 weeks

or

If you have had COVID-19 and are experiencing ongoing symptoms (fatigue, cough, brain fog, pain)

**You haven't received acupuncture or herbal treatments in past 3 months
...and can read English.**

Participant Benefits

Eligible participants will receive

- acupuncture treatment and/or Chinese herbal supplements for 12 weeks
- small compensation for their participation

To see if you, or someone you know, qualifies, please contact us at: **(562)269-5905** or [\[longcovid@scuhs.edu\]](mailto:[longcovid@scuhs.edu]).
