

# WELCOME TO SCU TOOLS

## DATA & ANALYTICS FOR SCU MSMS STUDENTS

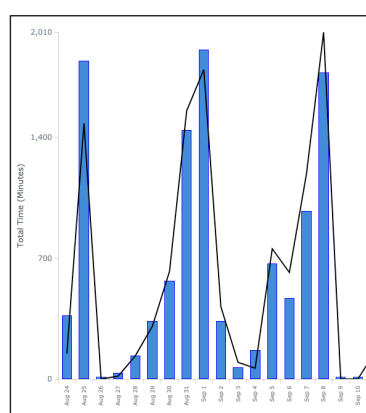

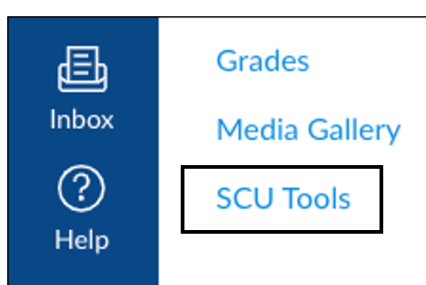

### WHAT IS SCU TOOLS?

SCU Tools is a suite of tools designed to provide detailed data and analytics to SCU MSMS students. Using these tools can help you easily identify strengths and opportunities for growth.

### ACCESSING SCU TOOLS

You have access to SCU Tools within every course in Canvas. Visit a course and then click on the SCU Tools link on the left side navigation menu.

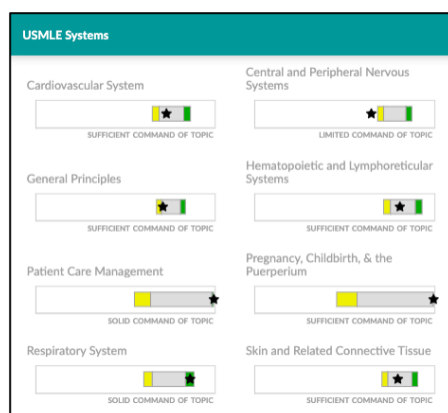

### VIDEO ENGAGEMENT TOOL

The video engagement tool tells you exactly how much time you have spent with Self-Directed Learning (SDL) videos. This data is displayed on a course-by-course basis, so every course will show a different graph.

### GAP ANALYSIS TOOL

The Gap Analysis Tool is based on your exam data, and shows how you are performing across USMLE systems, disciplines, and LCME standards. The goal is to show your precise areas of strengths and opportunities for growth.

### GET SUPPORT & REMEDIATION

If you are concerned about your performance in any of the areas listed in the Gap Analysis, you can work with your moderator, program director, and the MSMS faculty to develop a support and improvement plan.

### NEXT STEPS

Login to Canvas, open a course, and explore SCU Tools! Use SCU tools to determine your areas of strength and opportunities for growth.
