

Good evening SCU employees,

This evening state and county health officials introduced new orders relating to operation. SCU – as a higher education institution – can continue to provide essential functions on campus. However, we will continue to move forward with our plan to help individuals work remotely. At this time, the campus is not closed and you are able to come to campus tomorrow if needed so that we may assist in work from home needs. If you have any immediate concerns, please direct them to your supervisor. The President will provide more detailed communication tomorrow.

Thank you!
